Saturday morning

My Darling Mack,

Hello there! I just want to drop you a few lines and tell you I'm thinking about you and your daughter and I miss you very much.

Hope you arrived without incident and that you didn't have to drive too late. I came on about 3 yesterday afternoon arriving here about 4:30. Our precious little Kathy was really a sight to behold. She was all dressed in a new blue outfit "grandma" had bought her. I think she recognized me right away because she just clung to me putting her arms around my neck. Of course I cried for a minute just holding her in my arms again. It had been such a long time!

She's sitting on the floor here in my room playing so nicely. She is really a doll and I love her so. I think she means even more to me when you're gone from us because she is part of you that I can hold and love. I love you with all my heart, Darling.

I'll enclose this little bit of information about CPS which Daddy got for you. You probably know these folks but a friend of Daddy's wanted you to have it for reference.

All is well here. I'll probably go to work Monday. Oh, a big thick envelope from Gene Steed came yesterday to S'ville and I just marked it to be forwarded and gave it right back to the postman. You should get it Sun. or Mon. Is it the contract?

Well, nothing much more to say now. Will write more later. I love you very much. Take care.
Debbie
