My Darling,

Thank you so much for telephoning this evening. I have been thinking about you constantly and ever since talking with you I've been talking about you to the folks. Gosh, just hearing your voice has made this day wonderful. I love you very much, Darling.

I'm so glad you had a good trip up though I do wish I could have been with you and helped do some of the driving. I know how terribly tired you must be today. Hope you will sleep late Sunday morning.

We had a real good day today. Kathy and I got re-acquainted. She is such an adorable, happy little girl - and gets more and more personality by the minute. I hope all our children will be as happy and content as she is - she's a joy to have. Thank you so much for her. I love her so very much.

We watched "Lust for Life" on T.V. tonight. Kirk Douglas did a superb job of playing Van Gogh and the movie was beautiful in color. It was a very good picture, I thought.

Urdine was here for supper this evening and Louise Unfried came

over after dinner and watched T.V. with us. Louise is going back to college at T.W.C. getting her teacher's certificate. She's taking "History of Educational Thought" plus 3 other courses. Isnt that the course you took at Tech in night school?

As I said on the phone I'm planning to go to work for Daddy on Monday. I may not work the full 8 hours every day, but I will work as much as I can. I'll come home when Mother needs to go do errands or has appointments etc. so she won't be tied down with Kathy. I don't want Mother to feel hemmed in but I do think she enjoys taking care of Kathy and that it does her good. Besides, we can use the money I'll be earning. Right??

Well, Darling, I have so many questions I want to ask, but you will tell me all that you can when you get a chance I'm sure. Do let me hear how things are progressing. You know I'm dying to know how you're doing;

When does the bank plan to move to the new bldg. or do you know yet? Hope it won't be too long so that The Circle Register Publishing Company can move into new quarters soon!

By the time you get this you will have visited Mama in Perryton. I hope she's in a good frame of mind about everything now and that you will have an enjoyable visit with her.

Mother and Daddy want to come see Follett as soon as possible, so they say. Perhaps they'll drive Kathy and me up whenever we can come. Who knows?!

Well, I'd best close for now. I've taken up enough of the publisher's valuable time!! Please drop me a note when you can. You're in my thoughts and prayers always - as you are in my heart. I love you -
Forever,

XXXXXX 000000

Debbie
